

Clinical Cardiologist

Newmarket and/or Barrie, ON (full-time or part-time)

PACE Cardiology is a well established leader in cardiac care, research and diagnostics. With a full range of outpatient services, PACE is looking for full or part-time Ontario licensed cardiologists to work at its Newmarket and Barrie clinics on-site, or virtually/remotely.

Whether you are looking to move, expand your practice or simply looking to see a few more patients in your spare time, our bustling clinics offer a sound turn-key practice solution.

PACE clinics are located in York and Simcoe Regions, on the northern edge of the Greater Toronto Area and in Barrie, allowing easy access to city activities as well as a short distance to cottage country and ski resorts.

Residents of York Region enjoy access to an array of real estate options and public and private schools, making the area a choice location for many young families and for those looking to leave the hustle and bustle of the city for the suburban lifestyle with easy access to the GTA.

Full time candidates will have access to an equal share of referred-in imaging across the practice, based on their credentials. The practice is fully digital and we offer OTN accredited clinical video conferencing. All investigations can be read and reported remotely.

Candidates must hold or be eligible to hold an Independent Practice License with the College of Physicians and Surgeons of Ontario and be Royal College certified in cardiology.

To join the PACE team, please forward your CV to careers@www.pace-cardiology.com.
